

Oh! the Places He'll Go!

Dear Teacher,

Oh! how grateful I'd be, if you'd do this
favor for me!

I started this gift from the time he was very small
and hope to give it to him when he is tall.

Each teacher that has helped him on his way, I hope
will get to autograph this book one day.

Please add a note, a picture, or song,
a special memory with him can never be wrong.

Don't forget to add the year,
so he can think back to his special time
with you near.

When it's all done you'll have helped
shape the person he is,
and you can take credit when they call him a whiz.

I will present this book to him on graduation day,
so he'll fondly remember who helped him on his way.

Thank you!
