

Oh! the Places She'll Go!

Dear Teacher,

Oh! how grateful I'd be, if you'd do this
favor for me!

I started this gift from the time she was very small
and hope to give it to her when she is tall.

Each teacher that has helped her on her way, I hope
will get to autograph this book one day.

Please add a note, a picture, or song,
a special memory with her can never be wrong.

Don't forget to add the year, so she can think back
to her special time with you near.

When it's all done you'll have helped
shape the person she is,
and you can take credit when they call her a whiz.

I will present this book to her on graduation day,
so she'll fondly remember who helped her on her way.

Thank you!
